Non-Commercial Source License (NCSL) v1.0

Copyright (c) [Year] [Name/Company]

This license allows non-commercial use of the Software. Any commercial use requires the Licensor's prior written permission. This is a source-available license and is not an OSI-approved open-source license.

1. Definitions

1.1 "Software" means the source code, object code, scripts, configuration files, documentation, and any other materials included in this repository or otherwise distributed with this license.

1.2 "Use" means to run, reproduce, display, test, modify, create derivative works of, merge, distribute, or make available as a service.

1.3 "Non-Commercial Purposes" are purposes that are not intended to obtain a commercial advantage or monetary compensation, whether direct or indirect. Examples include research, teaching, personal/hobby projects, and internal evaluation. Mere cost recovery without a profit motive is treated as non-commercial.

1.4 "Commercial Use" includes, without limitation: offering paid products or services; use within for-profit business models; providing or incorporating the Software into paid, ad-supported, or monetized offerings; use to deliver paid services or consulting; or use in production systems of an entity pursuing profit. In cases of doubt, the use is deemed Commercial unless the Licensor provides written permission.

1.5 "Licensor" means [Name/Company]. "Licensee" means any person or entity that uses the Software.

2. Grant of Rights (Non-Commercial Only)

2.1 Subject to this License, the Licensor grants the Licensee a worldwide, royalty-free, non-exclusive, non-transferable, and non-sublicensable license to Use the Software solely for Non-Commercial Purposes.

2.2 For Non-Commercial Purposes, the Licensee may copy, run, modify, create derivatives of, and distribute the Software, provided that: - (a) this License text is included with each copy and derivative work, - (b) clear copyright and license notices are retained, and - (c) modifications are clearly marked.

3. Prohibition of Commercial Use Without Permission

3.1 Any Commercial Use is prohibited without the Licensor's prior, express, written permission.

3.2 For permissions and commercial licenses, contact: [Contact Email/URL].

3.3 Unauthorized Commercial Use may result in injunctive relief and damages to the maximum extent permitted by law.

4. Offering as a Service (SaaS/Cloud)

4.1 Making the Software or derivative works available to third parties as a service constitutes Use. Such Use is permitted for Non-Commercial Purposes only and is prohibited for Commercial Use absent written permission under Section 3.

5. Source-Available; Not Open Source

5.1 This License permits access to and Use of the source code but is not compliant with the Open Source Definition of the OSI because it restricts Commercial Use.

6. Patents

6.1 To the extent the Licensor owns enforceable patent claims necessarily infringed by Non-Commercial Use of the Software, the Licensor grants a limited, royalty-free patent license for such Non-Commercial Use. No patent license is granted for Commercial Use.

6.2 Any breach of this License automatically and retroactively terminates the patent license granted under 6.1.

7. Trademarks

7.1 This License does not grant any rights to use the Licensor's names, trademarks, or logos, except for factual attribution.

8. No Warranty; Disclaimer of Liability

8.1 The Software is provided "AS IS" and "AS AVAILABLE," with all faults and without warranties of any kind, whether express, implied, statutory, or otherwise, including, without limitation, warranties of merchantability, fitness for a particular purpose, title, non-infringement, quiet enjoyment, or that the Software will be error-free, uninterrupted, secure, or meet the Licensee's requirements.

8.2 To the fullest extent permitted by applicable law, the Licensor disclaims all responsibility and liability for any and all claims, losses, damages, costs, or expenses of any kind, whether direct, indirect, incidental, special, consequential, exemplary, or punitive, arising out of or in connection with the Software or this License, including but not limited to loss of profits, revenue, data, goodwill, business interruption, procurement of substitute goods or services, failure of security mechanisms, or any other commercial or economic loss, in each case whether based on contract, tort (including negligence), strict liability, or any

other theory, even if advised of the possibility of such damages and even if a remedy fails of its essential purpose.

8.3 The Licensee assumes all risks and responsibilities for selection, Use, and results obtained from the Software.

8.4 Some jurisdictions do not allow the exclusion or limitation of certain warranties or liabilities; in such cases, the exclusions and limitations above apply to the maximum extent permitted by law.

9. Compliance; Legal Requirements

9.1 The Licensee is responsible for complying with all applicable laws and regulations, including export controls, data protection, and security requirements.

9.2 The Licensee shall not circumvent or attempt to circumvent any technical limitations or usage restrictions related to the Software.

10. Term and Termination

10.1 This License is effective upon Use of the Software and continues until terminated.

10.2 Upon any breach of this License, all rights granted hereunder terminate automatically without notice. Upon termination, all Use and distribution must cease immediately; archival retention for evidentiary purposes is permitted.

10.3 The Licensor may terminate this License for cause with immediate effect with respect to a breaching Licensee, to the extent permitted by law.

11. Commercial Licenses; Exceptions

11.1 The Licensor may offer separate commercial licenses granting additional or different rights. Such licenses must be in writing and signed by the Licensor.

11.2 Contributions by third parties are, by default, licensed under this same License unless otherwise agreed in writing (e.g., via a Contributor License Agreement).

12. Notices and Attribution

12.1 The Licensee must retain all copyright, license, and attribution notices in the Software and accompanying documentation in any significant portions or derivative works.

13. Severability; Governing Law; Venue

13.1 If any provision of this License is held invalid or unenforceable, the remaining provisions shall remain in full force and effect, and the invalid provision shall

be replaced by a valid provision that most closely reflects the original intent and economic purpose.

13.2 This License is governed by the laws of [Jurisdiction, e.g., Germany, or State of [X], Country]. Mandatory consumer protections of the Licensee's home jurisdiction remain unaffected where required by law.

13.3 Exclusive venue for disputes shall be the courts of [City, Jurisdiction], to the extent permitted by law.

14. Entire Agreement; Amendments

14.1 This License constitutes the entire agreement between the parties with respect to the Software. No oral agreements exist.

14.2 Amendments must be in a signed writing by the Licensor.

15. Summary (Non-Binding)

- Non-commercial use: permitted.
- Commercial use: only with the Licensor's written permission.
- View, modify, share: yes, for non-commercial purposes with notices.
- No warranty; Licensor disclaims liability to the maximum extent allowed.
